We support the following countries and carriers in this version:

UK	Orange
	VodaFone
	O2
Germany	D1
	D2 VodaFone
	E-Plus
	O2
France	Bouygues
	Orange
	SFR
Switzerland	Swisscom
	DiAx
	Orange
Austria	Mokilkom (A1)
	T-Mobile
	One/Connect Austria
The Netherlands	KPN Mobile
	Libertel Vodafone
	Telfort

Getting Started

1. Please make sure whether Bluetooth™ is switched on.

2. Install Connection Manager (CoMa) with the install tool of your HotSync Software.

3. Launch CoMa to set up your connection.

4. Choose your language.

5. Select your country, provider, phone and connection type and tap "Create" to finish.

   Some carriers require special usernames and passwords. You got these settings with your contract.

   You can change some settings - if necessary - such as username and password by tapping "Advanced"(go to step 6 in this case). This will be usually not necessary, you can setup your connection by tapping on "Create" and continue with step 7.

Advanced Settings

Use CID ▼ 1   (?)

User name: o2wap   (?)
Password: password

Connection name:
O2 GPRS

Network name:
O2 GPRS Ericsson   (?)

(Cancel)   (Create)

12:13 pm

6. Use the question marks for an explanation of the corresponding settings. Tap "Create" to to create the configuration. If you are not sure what to enter, tap "Cancel", this will restore the default settings.

via: ▼ Bluetooth

Info

(i) Configuration has been written successfully.

(Ok)

12:13 pm

7. You´ll see this confirmation screen if Sony CoMa has written your connection successfully. You are now able to surf the web or check your email with your Clié with an infrared or serial connection.

   If you have choosen a Bluetooth™ connection continue with step 8.

Preferences   ▼ Connection

Available Connections:

Standard Modem
Cradle/Cable
IR to a PC/Handheld
O2 GPRS

(New...) (Edit...) (Delete)

12:14 pm

8. **(Only for Bluetooth™ connections!)**
   Go to the Launcher, run the Prefs application and select Connection from the upper right corner. Choose the entry written by Sony CoMa. Tap "Edit".

9. **(Only for Bluetooth™ connections!)**
Please tap on "Tap to discover" to connect your Bluetooth™ enabled mobile phone to your Clié and to pair it.
Make sure your mobile phone is set to "Discovery mode" during the search.

Note: Please end "Discovery mode" to dial into a GPRS network via Bluetooth™.

Important Notes

Known Issues
To surf the web with T-Mobile GPRS with a browser (e.g. NetFront), set up a HTTP-Proxy in the browser preferences: proxy.max.at, Port 3128.

Please make sure to deactivate "GPRS always online" on your mobile phone.

Please make sure that Bluetooth™ is not switched on all the time, as it drains the battery fastly.
